

GUIDELINES AND PRICES FOR RESTORATIONS

Basic examples, based on current costs, subject to increases in materials & labour costs.

#1A Slab with the plaque embedded flush into the top

US\$300

#1B Slab with the plaque on a raised concrete base

US\$350

#2A Slab plus layer with the plaque embedded flush into the top

US\$350

#2B Slab plus layer with the plaque on a raised concrete base

US\$400

#3A Slab plus 2 layers with the plaque embedded flush into the top

US\$400

#3B Slab plus 2 layers with the plaque on a raised concrete base

US\$450

Each quotation will be finalized after inspection and assessment.

You will be notified before commencement of the restoration.

Site clearance, preparation and painting included.

Restoration of 4 corner posts (if present) \$50 extra

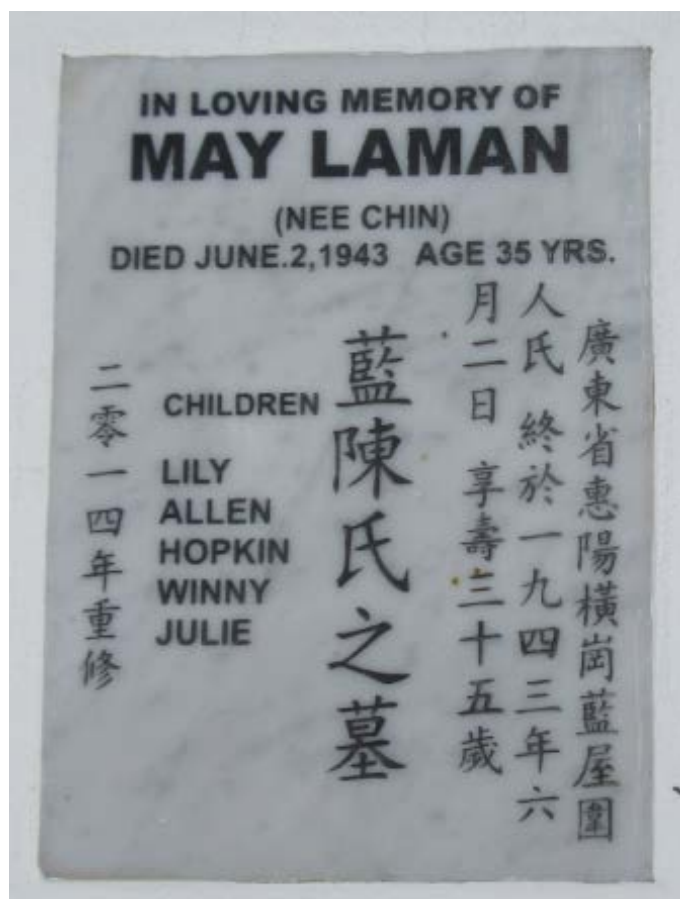

Costs reduced if the grave is already in good condition, and needs only minor repairs, or existing plaque is to be re-used.

Your choice of white marble or dark granite plaque.

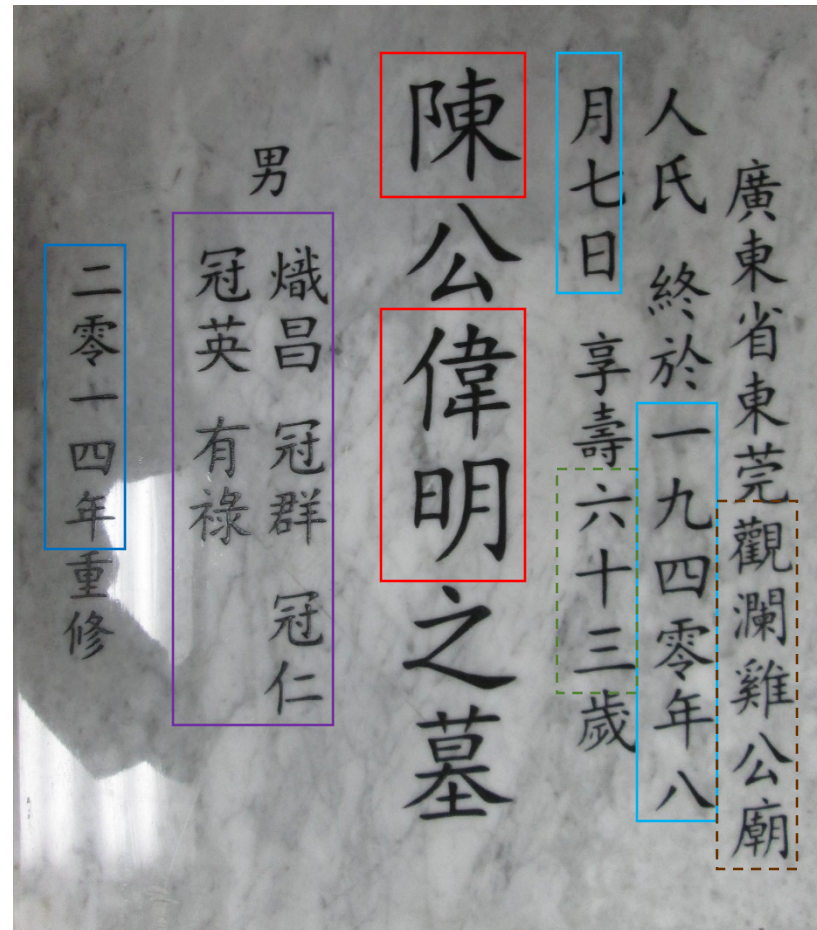

We provide design suggestions and translations. For uniformity, we require at least the deceased's name and village to be included in Chinese characters, if those are known. Most Chinese headstones/plaques include the following text in Chinese: "Tomb of [Name] from [village], died [DOD] aged [X] years leaving [names of spouse and children], headstone erected in [year]".

Depending on the number of children and how much text you want duplicated in English and Chinese, it normally fits on a plaque 12" by 16" but sometimes a larger one is needed. Oversized plaques cost \$50 extra.

Full payment required with order, inscription to be finalized asap thereafter.

Information from Headstones

“Tomb of Name (in center) [then reading from right to left] from Village, District, died date aged X years leaving *names of (spouse and) children*, headstone erected in year (by names of relatives)”
